

ELIC

designed by Tony Lanzillo & Carlo Martinengo

Bellezza e praticità assieme. Un originale portaombrelli con due vani adatto per ombrelli lunghi e ombrelli corti. Il vano meno profondo può diventare un capiente svuota-tasche. È realizzato in polietilene di vari colori.

Beauty and practical use together. An original umbrella-stand divided into two parts for long or short umbrellas. The part which is less deep could be used as a spacious knick-knack tray. It is made in polyethylene in various colours.
